BURNINGHAM, Alle, March 8.—The searcal among the morth Alabama Foneral commissioners and deputy mars alls, growing out of the indietment- against certain of them, whom, it is charged, drew more money from the government than they earned, whereby court costs were increased \$100,000 last year over the year previone, took a new turn when court was convened by Judge Bruce. District Attorney O'Neal moved to quash the grand jury venire on the ground that it had been illegally drawn. The motion was not granted.

The petit jury will be organized, when the same motion is expected by the district attorney. Special Examiners Chalmers and Cowart charge that there has been tampering with the juries to prevent new indictments and convictions in the cases against the acensed officials. They say relatives and friends of the accused have been put on the jury. They enarge that the jurors were drawn by the deputy clerk and not by the clerk, as they should have been. The accused officials on the other hand stand ready for a determined fight. They claim to be able to explain all prima facie evidence of fraud. None of them have received any pay from the government for nine months. The examiners have stopped their pay by their reports.

Another scandal has arisen by the disappearance of the clerk of one acensed official, who left Alabama as soon as the investigation commenced and cannot be found. The entire affair has caused a profound sensation and interest is added by the effort of the examiner to hold high court officials responsible for alleged attempt to prevent free and untrammeled prosecution of the accused.
